

DermaQuest Skin Care

In our continuing efforts to provide our clients with top of the line products, Space 07 will now be carrying DermaQuest skin care lines! DermaQuest skincare products are paraben free, no animal testing, no artificial fragrances and all-natural. Sam Dhatt, a world renowned chemist, is the owner of DermaQuest and another company that formulates for over 200 differ-

ent skincare lines. This terrific line consists of superior anti-aging, acne and sun protection products. All DermaQuest Skin Therapy products are non-comedogenic. DermaQuest technology signature products include the highest level of anti-aging peptides on the market, the first company to work with Planet-based Stem Cell to slow the aging process. All products are at the highest level of active ingredients possible to be effective on the skin.

Sunscreen is the superstar of all superstars in the anti-aging category; of course, it must be a broad-spectrum sunscreen product rated SPF 15 or greater. When applied correctly (meaning liberally, daily, and before your skin encounters any daylight, 365 days a year) it is your best defense against wrinkles, discolorations, loss of firmness, and dullness. Try "ZinClear SPF 30" by Dermaquest. Exfoliants can remove built-up layers of dead, rough, thickened, uneven surface skin cells that make skin look wrinkled and dry; for example, sun-damaged skin causes the outer layer of skin to become thick. Try "Daily Enzyme Cleanser" by Dermaquest. It cleanses and exfoliates at the same time!

Antioxidants reduce inflammation, repair DNA damage, restore the skin's surface barrier, help defend against environmental stress, allow skin to build more collagen, and improve skin's ability to heal. All antioxidants also effectively help fight sun damage. You still need sunscreen, but skin needs all the help it can get! Try "C-Lipoic Antioxidant Serum" by Dermaquest. Perfecting Your Skin: In order to achieve or maintain your optimal skin condition, and for a healthy glow, see your Skin Therapist here at space 07, starting in the early spring to prepare your skin routine for the upcoming summer. A maintenance monthly facial is very important to keep the skin hydrated, balanced, and looking it's absolute best.

2nd Annual Cut-A-Thon and NCAC

The stylists and the Space 07 Salon Bike Team are hosting our 2nd annual Cut-A-Thon 2011. One hundred percent of the proceeds are going to the Nor-Cal Aids Cycle. On **Sunday, April 10th** from 10 am - 5 pm some of the area's top stylists will be "cutting for the cause." Join us for an all-day raffle, music, and guaranteed fun! The bike challenge is a 4-day, 330 mile charity cycling event. It was developed in 2005 to benefit the inland Northern California HIV/AIDS service providers.

Tips for a Successful Wax

***Exfoliate** - While the skin on the face is generally exfoliated enough in terms of waxing, the body needs a little extra help. A somewhat gritty body scrub will help rid dead skin cells around the skin pores and hair follicle, providing an easier exit. Continue to exfoliate a couple times a week afterwards to allow the new hair to come through the skin surface cleanly to avoid ingrowns.

***Dull the Nerves** - Prior to waxing, apply something to numb the skin like "No Scream Cream". Take an aspirin or ibuprofen about 30 to 45 minutes before your wax.

Recovering from Winter & Preparing for Spring- What Skin Needs

Spring Special

Custom Facial with Glycolic or Alpha Hydroxy Peel for **\$115!** (regularly \$135)

A relaxing, yet effective treatment to dull away that winter skin for a new brighter, softer skin for spring!

Note from the Owner
GEAR UP for our Second Annual Cut-A-Thon! \$25 haircuts. \$15 barber cuts, and \$10 brow waxes. All proceeds benefit the NCAC and Team Space 07. See you on the road!

-Ken Schultz

Second Saturday: Contemporary

Southern Folk Art

Throughout the months of March and April, artist Steve Vanoni will be featured at Space 07 Salon, alongside multiple other artists. This group of artists spent their lives in the American South. Most of these artists are black and their works have been included in numerous national and international exhibitions, at a wide variety of galleries and museums over the last 30 years. Their art has been created free of the pretentiousness that often surrounds the art world, it's historical isms and past.

A MAKE OUT IS JUST A MAKE OUT; Ode to Ma Ray.
Steve Vanoni. 2000

These Southern Folk Artists create art for the same variety of reasons that most artists do: to convey an idea/feeling... to make something simple, fun, beautiful, powerful, for catharsis, to share the images of what life used to be... to preach the "word," or because it feels good.

And in the process, painting after painting, year after year, an individual visual language evolves, a voice and vernacular that is singular, rich, and as pleasing to experience as the artists are themselves.

These artists' lives, their stories and their art, are all rich and uniquely American. They are all from the Southeast where there is a particular flavor and light and a unique socio-political and psychological climate that these artists have all had the strength and resiliency to overcome and celebrate in. Stop by Space 07 Salon on Saturday, April 9th for the grand reveal and general Second Saturday fun!

Administrative assistant of a local credit union, mountain hiker, karate aficionado (a black belt, as a matter of fact) and mother of two boys... who has the time to maintain a modern, chic hair style? As a stylist, nothing gives me a greater sense of satisfaction than to see clients like Beverly radiating confidence, with a little extra spring in their step after walking away with a fresh look.

For this makeover I decided that Beverly could benefit from an updated but no-hassle hair style that would complement her busy schedule. In this case, lightening Beverly's hair just a touch accented her natural hair color very well, which was a little muted in tone. I also added a few layers and texture to complement her face and to lighten her thick hair. To give her a smoothed, finished look I ran a flat iron through the ends with a tad of Moroccan Oil .

Before & After

If you're looking for a fresh, new look or just want something fun and different, call Space07! Why not pamper yourself this Spring? Mention this Space07 newsletter and receive a **20% discount** on your Sheilah-Make-Over! I'm sure I will bore you to death with stories of my Dachshunds or crack you up with my own special brand of humor.

Sheilah Nickerson, Stylist

Spring MAKE-UP Trends

Nude seems to be the key makeup color when it comes to spring/summer 2011! This applies not only to the skin and eyes, but also for the lips too.

The color palettes vary a lot from nude and soft peachy to extremely bold and vibrant shades of fuchsia pink to orange on the lips

turning up the heat and getting ready for summer.

Try wearing matte or lift with glitter gloss over it.

This adds perfection in creating a juicy lip with a flirty style. Eye shadows are lime green, soft sea blues, peach tones, and soft shell pinks with minimal mascara that gives a nude effect around the eyes.
